## NULL RESIGNS POST AT SANDUSKY HOME

Mrs. Allman, Welfare Chief, Reports Decision After Ouster Proceedings Are Started By State

COLUMBUS, April 27.—(UP)—Forty-eight hours after removal proceedings had been prepared against Perry L. Null, suspended commandant of the Ohio Soldiers' and Sailors' Home at Sandusky, Mrs. Margaret Allman, state welfare director, announced today that she had received a letter of resignation from Null.

The resignation, Mrs. Allman said, would be effective June 1, if accepted.

Mrs. Allman said the resignation agreement was reached Saturday at Sandusky when welfare department representatives conferred with counsel for Null.

The action of Null, under a 30-day suspension, was a reversal of his previously announced intention of opposing attempts to remove him.

Given Opportunity

Mrs. Allman disclosed that she had offered Mr. and Mrs. Null the opportunity of resigning last March 1, but that they had refused. She said she had made the offer out of "personal friendship."

The welfare director made no other comment on the resignation. She would announce her decision on acceptance later this week. Formal technical procedure is necessary to acceptance.

Mrs. Allman disclosed that this procedure would require that she formally revoke the removal order and withdraw the charges against Null, to reinstate him as an official state employee before he could resign.

She said that Null would be continued as commandant at the home for the period between the acceptance of the resignation and the effective date, although having no official administrative powers.

Volka in Charge

Lieut. Col. John C. Volka, acting commandant, will continue as head of the institution during the "reinstatement" period, Mrs. Allman said.

The period to June 1 will also permit the Nulls to remove personal belongings from the institution, Mrs. Allman said, in addition to winding up such details as they might desire.

The welfare director also refused to comment on the possibility of Col. Volka being continued as permanent head of the institution upon effectiveness of the Null resignation.

She said that "phase of the matter had NOT been fully decided upon and that Col. Volka would be continued as acting head for some time."

## AVIATOR VISITS AFRICAN CAPITAL, SPREAD WARNING

ADDIS ABABA, April 27.—(UP)—A grim warning that if Ethiopians destroy the roads to Addis Ababa or otherwise resist they will be "destroyed" was given today by the crew of a three-motored Italian plane which almost sheared the tops from the trees of the capital.

From the plane, there dropped into the postoffice square a package of pamphlets, written in the native Amharic language, which said:

"The Italian armies are victorious in north and south. Carry on your business as usual, plant your crops, and we shall not harm you. But do not destroy the roads or resist otherwise or we shall destroy you."

The plane swooped down over the capital, its daring pilot maneuvering it between the treetops and but a few feet over the spire of the English church, and examined the wireless center.

Two hundred persons stood about the walls of the courtroom while hundreds stood in line outside waiting to enter.

The delayed decision pending court observers. Many had expected, in view of the NRA and AAA decisions, that the court would hold the Guffey Act unconstitutional without delay.

In the only two major New Deal acts to receive approval of the court—the gold clause amendment and the TVA—the court took an unusually long time to make a decision. The delay in the Guffey Act increased hopes of New Dealers.

The jurists have been reported having difficulty in reaching their decision.

Congressional interest in the court's ruling is especially keen. Should the act be approved similar legislation for the anthracite coal industry and the textile industry are expected to be drawn.

# PLANS F. D. R. SPEECH TALK

of Platform Out-  
New Early June  
to Add More

WASHINGTON, April 27.—President Roosevelt's 1936 New Deal platform began to shape itself before the year-end election as his campaign headquarters pointed to primary tests in Pennsylvania and Massachusetts.

President has sketched some of his platform in two speeches. He will add to it early June during a pre-election speaking tour of Arkansas and Texas. On April 27 at Philadelphia—it is predicted—the formally adopted platform of the Democratic party will be indorsed and set by Mr. Roosevelt at which he will accept nomination for the presidency.

Policies Established

Recent Baltimore speech and press of last Saturday in New York provided Mr. Roosevelt with several choices. He could have walked out of the White House to his opposition and the walk-out of brigade of rats bolters to run, instead, he avoided personal attacks to lay down future policies.

to be carried out if the New Deal wins again.

Republican critics see the end of a "breathing spell" in the Roosevelt program as it is taking shape. Observers generally believe Mr. Roosevelt would accept reelection in 1936 as a mandate to continue with so-called experiments to "rebuild" America by national planning and national action. The program as revealed in the New York speech, particularly, indicates the New Deal feud with "horse and buggy" interpretations of the Constitution has not ended even though it may not be given direct emphasis in the Democratic campaign. On the basis of the two speeches, Mr. Roosevelt's 1936 platform appears to include these planks:

1. National action for a limited work week, stable employment and adequate minimum wages.
2. Encouragement of higher minimum and lower maximum working ages to remove juvenile and senile labor from payrolls.
3. National attack on economic and social problems.
4. A wider distribution of a greater national income.
5. Maintenance of policies intended to increase price levels—a cheapening of the dollar in terms of commodities.

The foregoing are mere statements of objectives without explanation of methods. But Mr. Roosevelt's language in two political speeches so far indicates that the philosophy which evolved NRA and AAA as "national" solutions of "national" problems is unchanged despite Supreme Court decisions holding both the National Industrial Recovery Act and the Agricultural Adjustment Administration Act to be unconstitutional.

Ten bantam hens and feed for the chicks will be furnished by the Pickaway Farmer's and Sportsman's association.

## all Tales

JOHN H. DUNLAP SR. of Williamsport was having a lot of tough luck with his hogs. So many were dying. He learned what was wrong when he discovered that the tails of all the dead hogs were weighted with a wad of mud.

The mud had become so heavy it was pulling the skin back off the eyes of the hogs. They died from lack of sleep.

## NEW RUG CLEANING SYSTEM IS EMPLOYED

A new idea in rug cleaning that eliminates harm to colors and slitting by the electric carpet washer method is being used by Walter Heise at his location in Milliron's shoe repair shop on E. Main-st.

The washer operates on the principle of a special cleaning compound distributed through soft rubber sponge applicators. A "shampooing" action follows which thoroughly cleans rug fibers.

Dirt laden, begrimed rugs and carpets are quickly rejuvenated by this process, Mr. Heise claims.

The Household Editor wishes he had more than  
three prizes each week to distribute among the recipe  
contestants. A large number of really worthwhile re-  
cipes passed through the editor's desk this week and  
it is with regret that more cash awards cannot be  
given for these good entries.

But, try again this week! It costs nothing to enter,  
except your recipe must be accompanied by a wrapper  
or container of one of the products advertised on this  
page, and it takes only a few minutes to jot your fa-  
vorite recipe down on paper and send it on.

Remember, there is no limit to the number of  
weeks you can send in a recipe but please do not send  
in more than ONE each week. This is one of the rules  
of the contest and when more than one recipe is sub-  
mitted by a person then none of the recipes are judged.

Take a pencil and write out your entry for this  
week, right now! Then have it in this office before next

## Business Women's Clubs Have Inter-city Meeting

### State Members in Group of Fifty At Session

A group of fifty enjoyed the inter-city meeting of Business and Professional Women's clubs Sunday at the Pickaway Country club at which the local club was hostess.

The dinner meeting was a delightful affair. Miss Charlotte Phelps, local president, welcomed the guests after which the group joined in the ritual of all club gatherings, "The Collect," written by Mary Stewart, a charter member of the National Federation of Business and Professional Women's clubs.

Following the dinner hour Miss Phelps introduced Miss Charlotte McEwing, Public Relations chairman, who planned the meeting. Miss McEwing announced the informal nature of the party and presented Miss Anna Schleyer, who arranged several musical numbers for which she was accompanist.

Miss Mary May Haswell entertained with a group of vocal numbers. She sang "The Message of the Violet," "Spring's a Lovely Lady," "In a Garden of My Heart," and "The Meadow Lark."

Several prominent state members were present and gave short talks.

Dr. Anne Marting of Ironton, president of the Ohio Federation, told of the plans for the annual convention to be held in Toledo May 23 and 24, and of the regional meeting to be held at White Sulphur Springs in June.

Miss Virginia Fletcher, first vice president of the state organization, added bits of club news and urged all who could to attend the state and regional gatherings.

Miss Ruby Chaffin and Miss Wahnita Barnhart played an accordion duet, after which Miss Elizabeth Pixley, past president of the Ohio Federation, added her friendly greeting to the local and visiting clubs. Miss Pixley, whose home is in Portsmouth, has always been a close friend of the members of the Circleville club and it was a special pleasure to have her present on this occasion.

Other state officers, Miss Florence Given, auditor; Miss Sarah Ritter, corresponding secretary, and Mrs. Hazel Zwager, district chairman, were introduced, as were the local officers and their out-of-town guest, Mrs. Sewell Dutton of Greenfield, Mass.

Following a second duet by Miss Chaffin and Miss Barnhart, the group sang the state song and on request of some of the guests, the two songs of the Circleville club, the words of both being written by Miss Clara P. Southward.

Out-of-town guests were Dr. Marting of Ironton; Miss Fletcher of Xenia; Miss Pixley of Portsmouth; Miss Given, Miss Gertrude Gampfer, Mrs. Lillian Fidler, Miss Rose Richwine, Miss Stella Bertke, Miss Mary Dorthick, Miss Lucille Helm, Miss Rose Engle, Mrs. Zwayer, and Miss Amy Lyons of Columbus; Miss Eva Welch, Miss Ethel Beckman, Miss Geraldine Hope, Miss

## Try to Appear With Stokowski Thursday Eve

and Louis Prima's Famous Band to Have Parts in Program; Vallee Signs High School Trio

Long awaited occasion when Bing Crosby sings with the Philadelphia Orchestra under the baton of Leopold Stokowski finally takes place Thursday, April 30, when the Music Hall goes on the air with a WEAF-NBC network at 9 p. m. (EST). Una Merkel, actress, and Louis Prima's band will also be heard on the broadcast.

Special studio setup will be necessary for this show with the Philadelphia Orchestra located in one of the studios in Hollywood and the radio stars of the program, including Crosby, Prima, and Una Merkel, in the regular Music Hall studio.

Stokowski conducting, the Philadelphia Orchestra will play symphony selections in the program, which will include the climax of the "Blue Danube" waltz, which will be set up. There will be a soloist with the orchestra.

Prima and his New Orleans band, one of music's "hot" combinations, and Crosby's orchestra also in the program. There will be three kinds of music in prospect—symphony, jazz, and Dixie rhythms, and Crosby's "jams."

Prima's Detroit girls thought it fortunate in getting an opportunity to sing for Rudy Vallee when the famous orchestra leader stepped up and asked them to appear on the program they experienced a seldom comes to high school girls.

Ann Marie Bretzlaff, 16; Kathleen, 18; and Bobbie, 18, of Detroit, have been on his Fleischmann's network every week since last year.

They were visiting Cass Tech High School, Detroit, where they are students when the opportunity of a musical program was offered. When the orchestra leader heard the trio sing, he was so impressed by their talent that he knew and finally they were to appear with him on the radio and in night club.

The girls all play instruments and discovered by accident, before Vallee met them, that their voices blended in a trio. He predicts, as he did while they were in high school, that they will "go places."

### Oddities in Nation's News

#### DETECTIVE MISSING

MADRID, April 27.—(UP)—The wife and superiors of a detective who disappeared after being sent last Wednesday to arrest pretty Miss Unrue Pastor, monarchist propagandist, were not at all reassured by a telegram from him today.

"Don't worry," he wired. "In good health."

He didn't mention Miss Pastor, who disappeared at the same time.

#### BACK TO BOOKIES

NEW YORK, April 27.—(UP)—Henry Hewitt, 58, ran \$20 into \$1,800 on five races at Jamaica track. So exhilarated was he by fortune and bourbon that he began tossing currency in the air. A policeman conserved his assets by nabbing him for alcoholism when he had \$1,710 left.

"That cop," Hewitt told the judge, "should have let me alone. Now it'll all just go back to the bookies."

#### PROJECTS SUSPENDED

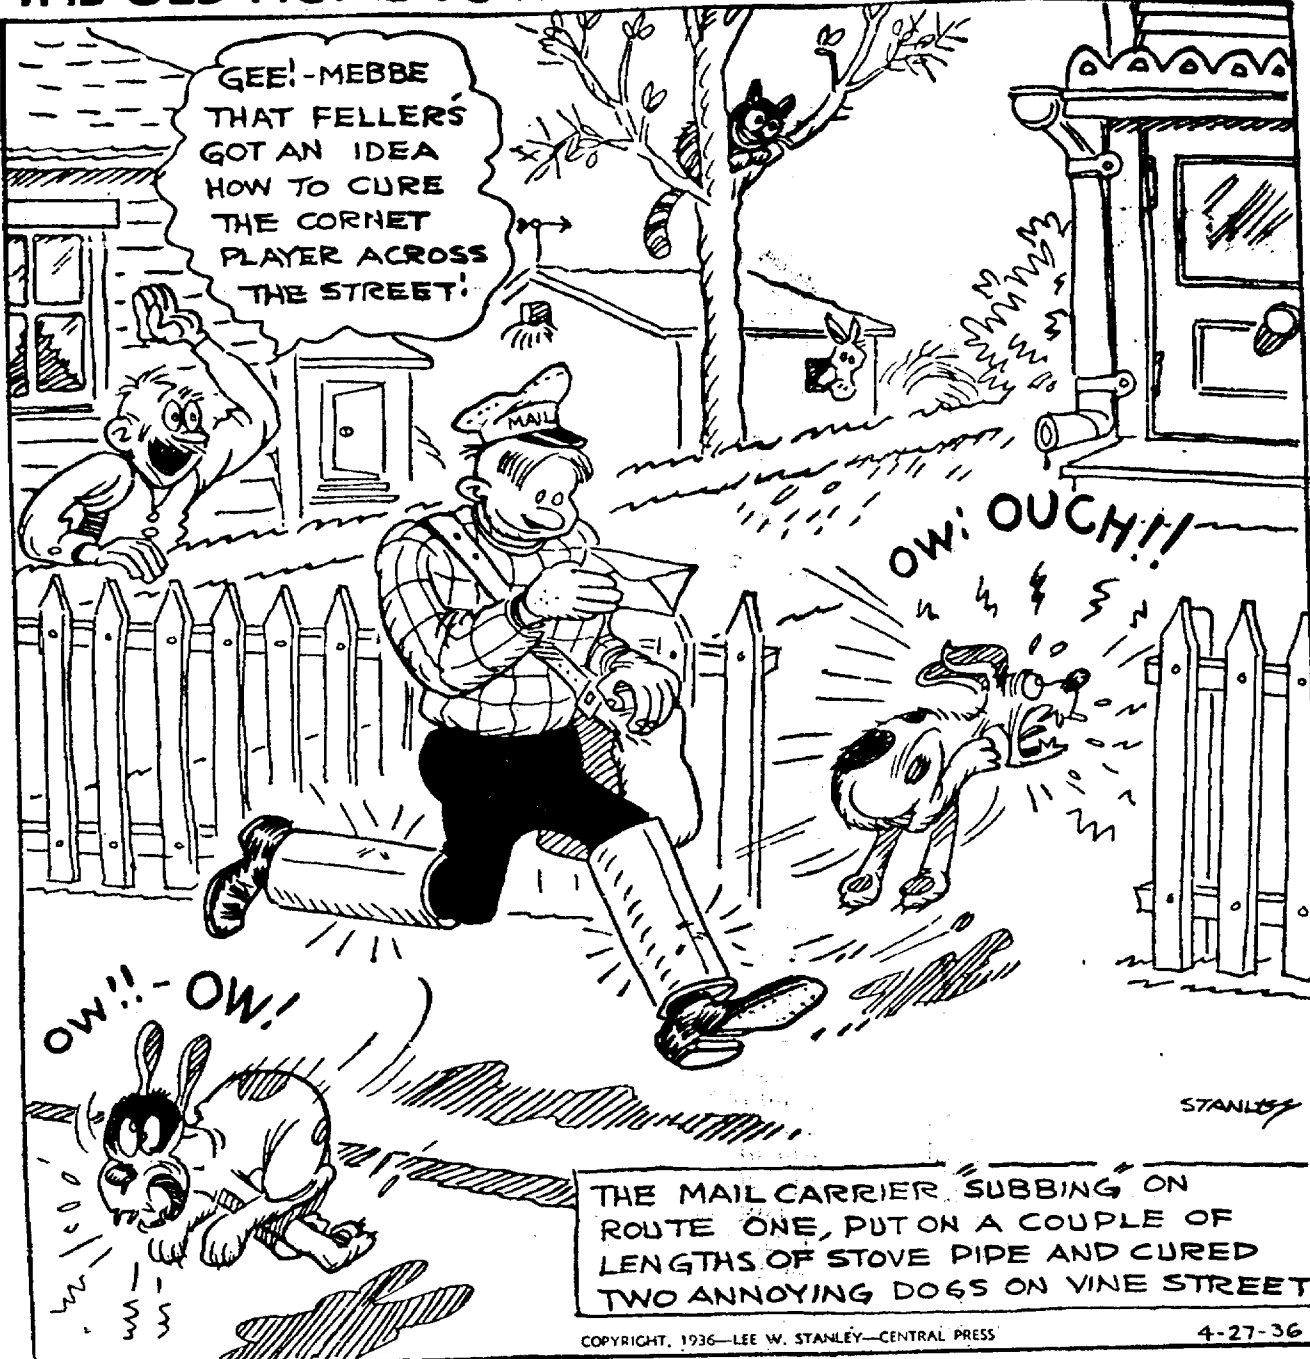

All WPA projects were closed Monday and will not reopen until Wednesday morning. Workers had sufficient time in Saturday for the pay period ending Tuesday. Payrolls were sent in Monday morning.

#### WIND TRICKS FIREMEN

WILLOUGHBY, O.—(UP)—The wind plays queer tricks. For example: It crossed wires connected to the fire siren, yanked ten firemen out of bed, and disturbed the sleep of almost everyone in Willoughby.

## ATLANTIC STORM IMPERILS LIVES ON THREE SHIPS

Continued from Page One

boats under the American flag, was Captain Giles Stedman who, while master of the American merchant, took 22 men off the sinking British freighter Exeter City in January, 1933. Early today he reported to his office here that he was 20 miles to the west of the Saint Quentin and "proceeding" to her assistance. He was expected to arrive around dawn. The Bremen, farther away, was not due until noon.

The sea was heavy and even the huge rescue ships were slowed to far below their normal speeds. Both the Ivanhoe and the Saint Quentin appeared victims of the same storm. Their positions were approximately 100 miles apart. The distress calls of the Saint Quentin were first picked up by the powerful radio of the Bremen. She communicated with other ships in the vicinity and with the shore stations of Mackay radio and the Radio Corporation of America. Soon after her first distress call, she told the Bremen her steering gear was disabled and that her radio room was flooded. Then her radio went dead and all attempts to rouse her were vain.

The Ivanhoe's rudder was broken, she reported, and she was drifting helplessly, unable to keep her nose into the heavily running sea. This made her position precarious. The Pilsudski hoped to reach her by dawn.

#### In Trouble in 1933

The Saint Quentin sailed from the Wales coal port, Newport, April 15 with a cargo of coal for St. Johns, Newfoundland. She is

of 3,528 tons burden, is owned by the Saint Quentin Shipping Company, Ltd., of Newport, and her crew is mostly British. In November, 1933, she broke her steering gear during a heavy storm in mid-Atlantic and sent an SOS, but managed to reach port safely, losing a part of her bridge. While fighting that storm she picked up the SOS of the S. S. Axilby, but was helpless to respond. The Axilby went down with 27 men.

The Ivanhoe is of 4,668 tons burden, is owned by the Norasia Steamship Co., Ltd., and is a tramp out of Trondheim, Norway. She is a modern ship, built in 1919. ("Tramp" does not necessarily designate either an old or unkept steamer, but one that does not operate on a regular schedule between given ports.—Ed.)

The Washington is due in New York Thursday, having left Cobh Friday. The Pilsudski is due at Copenhagen Thursday. She left New York last Wednesday. The Bremen is due at Bremen Wednesday. She sailed from New York at midnight Thursday.

## MORE RED CROSS MONEY BOOSTS TOTAL TO \$1,298

Two additional contributions to the Red Cross flood relief drive were received Monday by Carl C. Leist, county chairman. Washington-twp Grange contributed \$5 and Monroe-twp residents \$13.30. The total amount of the drive to date is \$1,298.50.

Mr. Leist announced receipt of a letter from Cary T. Grayson, head of the national Red Cross organization, thanking Pickaway counties for their generous contributions to the organization and praising the local chapter for more than doubling the original quota.

Having passed through unprecedented snows, floods and tornadoes, the U. S. will be in a position to enjoy normal weather if and when it comes.

## MISS ANDERSON HURT IN WRECK

Automobile, Truck Collide at Court and Main

Miss Mary Anderson, Williamsport, employee at the Farm Bureau, suffered minor cuts on the face and head and bruises Monday in an auto-truck collision at Court and Main-sts.

Miss Anderson was driving north on Court-st and was turning into W. Main-st when her car and a truck, going south on Court, driven by E. C. Davis, Grimm's Landing, W. V., crashed. The right side of Miss Anderson's car was damaged.

She was treated in the office of Dr. H. D. Jackson.

Miss Anderson is a daughter of Mr. and Mrs. Frank Anderson, former residents of Watt-st.

## PRESIDENT AND BRECKENRIDGE TEST STRENGTH

Continued from Page One  
taking formal shape at the Democratic National convention at Philadelphia June 27.

Principal planks in the 1936 platform included work week limitations, minimum wages, stabilized employment and an effort to raise working age minimums and lower maximums; national approach to economic and social problems, wider income distributions and maintenance of policies increasing price levels.

**Breckenridge in Race**  
The Pennsylvania primary tomorrow will match for the first time President Roosevelt and his anti-New Deal opponent Col. Henry Breckenridge on the Democratic preferential ballot. Sen. William E. Borah is the only entry in the Republican presidential poll.

In Massachusetts voters will be afforded an opportunity to write in their presidential preferences but no names of candidates will be carried on the ballot. Delegates for the Republican and Democratic conventions will be named.

Another political development accentuated the split between President William Green of the American Federation of Labor and President John L. Lewis of the United Mine Workers.

Green issued a warning to state and local A. F. of L. organizations to stand aloof from partisan politics until the "occasion seems appropriate."

### Conflicts With Lewis

Green's advice was in direct conflict with that of Lewis who has pledged his union and its efforts to the candidacy of President Roosevelt.

### Canaries Learn to Quack

CAMAS, Wash.—Harry Wyatt raises ducks. Mrs. Harry Wyatt raises canaries. Ordinarily young canaries are taught to sing by leaving them with the mother bird. Mrs. Wyatt left her canaries with Mr. Wyatt's young ducks. Mrs. Wyatt now insists her canaries quack as plain as day.

### PINCH ENDS 50-YEAR TIE

BERKELEY, Cal.—After 50 years of wedded bliss, Mrs. Bella F. Shelby, 70, has asked divorce from Benjamin F. Shelby, 72, on the grounds that he pinched her at a funeral. His idea, she declares, was to cut short her period of mourning.

### Woman Bosses Gold Dredge

LEWISTON, Cal.—This city has gone one step further in equal rights for women than any other. Miss Mary P. Smith is believed to be the only woman superintendent of a gold dredge in the world.
